Software Required:
The following software is required by the DI Meaningful Use Compliance Advisor product:
• The Diver Platform (by Dimensional Insight)
• Operating system software (Windows Server or Linux)
• Web browser (Internet Explorer or Firefox)
• Python

Required Disclosure of Additional Costs:
DI Meaningful Use Compliance Advisor (MUCA) is licensed as a software product. Fees include a one-time software license and annual payments for application support. Use of the Dimensional Insight Diver Platform, which is embedded in MUCA, is included in the licensing for the MUCA product. Note: the Spectre data engine is not included in the MUCA Diver Platform configuration. Customers are expected to provide their own hardware and license operating system software (such as Windows.) Licensing of Python is provided under the Python Software Foundation open source license. Fees for implementation services and training are charged separately from product licensing fees.

Required Disclosure of Limitations:
Dimensional Insight is not aware of any limitations, contractual or otherwise, that a user would encounter in the course of implementing and using the DI Meaningful Use Compliance Advisor that could prevent or impair the successful implementation, configuration or customization, maintenance, support or use of any capabilities to which the product is certified; or that could prevent or limit the use, exchange or portability of any data generated in the course of using any capability to which the product is certified.

DI Meaningful Use Compliance Advisor is a 2014 Edition compliant Inpatient EHR Module certified by ONC-ACB ISCA Labs in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.
