Melville, N.Y.-based Allied Physicians Group has [selected](#) Dimensional Insight's business intelligence solution, Diver Platform.

APG, a physicians group of 150 pediatricians with 35 office locations, will use Diver Platform to achieve valuable insights on revenue cycle management and clinical and financial operations initiatives, according to a news release. Through the analytics platform, the group aims to improve care gaps, reduce costs and increase quality of care.

"As the healthcare industry continues to evolve, organizations across the care continuum are realizing the inherent value of business intelligence to deliver meaningful insights and improve care delivery tactics," Fred Powers, co-founder and CEO of Dimensional Insight said in a statement. "We look forward to working with Allied Physicians Group to increase operational efficiencies, eliminate patient care gaps and ultimately improve their bottom line."
