

## See Performance on Quality & Make Improvements

Quality metrics provide the standards by which hospitals are measured. The measures provide the data used for reimbursement, and they give the outside world an indication of the work that goes on within the hospital. Dimensional Insight's Quality Advisor gives hospitals the tool that allows them to see their performance on quality measures and clearly identify areas for improvement, as well as to compare their performance to peer hospitals.

### Dimensional Insight's Quality Advisor:

- provides insight into a hospital's performance on standard inpatient health outcome measures
- allows hospitals to compare current levels of performance with benchmarks based on custom-selected peer groups
- comes with CMS and AHRQ standard measures
- allows for the customized visualization of current data and compared against benchmarks
- incorporates standard CMS-defined risk adjustment factors

The Quality Advisor dataset includes comprehensive claims data as well as information used for federal pay-for-quality programs.

### Built-in Measures Based on Industry Standards

Quality Advisor comes with dozens of measures, including 30 outcomes measures covering:

- 30-day All Cause Readmissions
- Condition-specific Readmissions
- Procedure-specific Readmissions
- Excess Days in Acute Care
- Hospital Mortality
- Average Length of Stay (ALOS)

Quality Advisor also includes 50 AHRQ standard measures for inpatient hospital and pediatric quality and patient safety.

## Key Benefits

- Ability to measure day-to-day trends
- Ability to compare performance to previous months and years
- Tailor benchmarks to specific peer groups and performance levels, such as top quartile
- Contains information for more than 3,000 hospitals to compare performance

## Key Features

- Measure Dictionary with 70 measures and descriptive metadata for each
- Customizable dashboards
- Customizable visualizations
- Intuitive interface for comparing performance across hospitals
- Automatic benchmark dataset generation and loading
- Extensive ad hoc analysis
- Benchmark dataset refreshed annually

---

## Standard Measures (KPIs)

### Outcomes Measures

- 30 Day Readmissions
- HWR 30D Readmit Rate
- HWR 30D Readmits
- HWR 30D Index Population
- AMI 30D Readmit Rate
- AMI 30D Readmits
- AMI 30D Index Population
- COPD 30D Readmit Rate
- COPD 30D Readmits
- COPD 30D Index Population
- HF 30D Readmit Rate
- HF 30D Readmits
- HF 30D Index Population

### Mortality

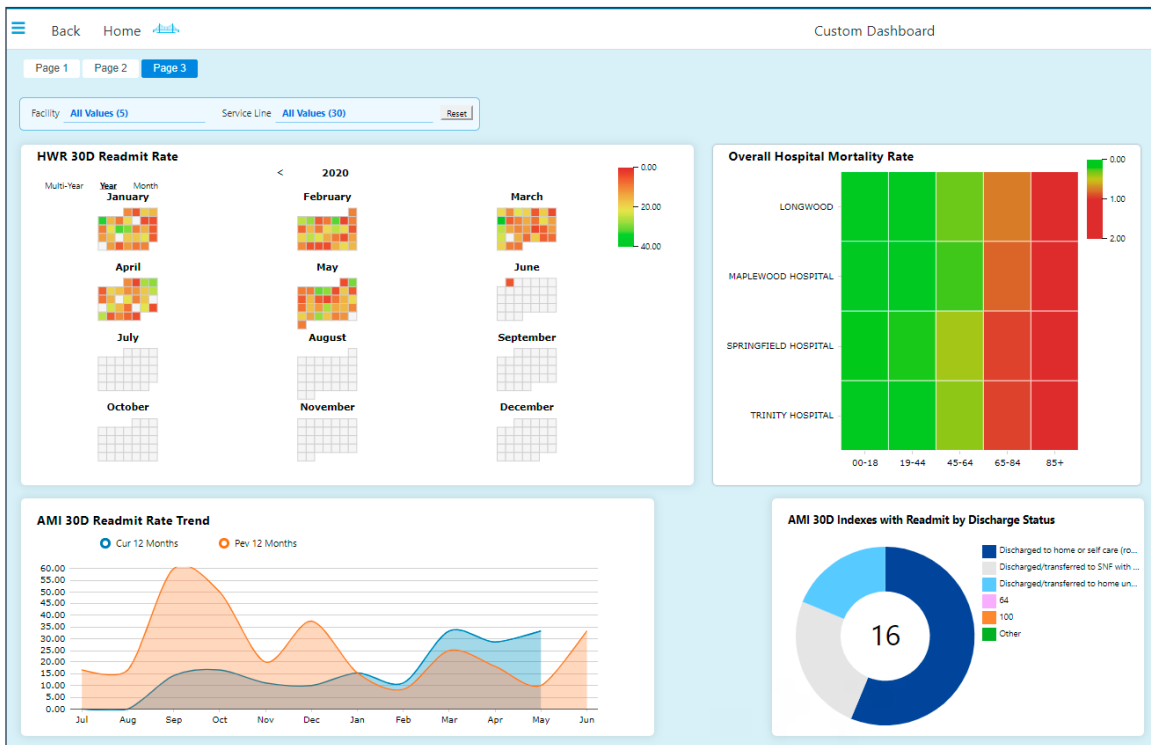

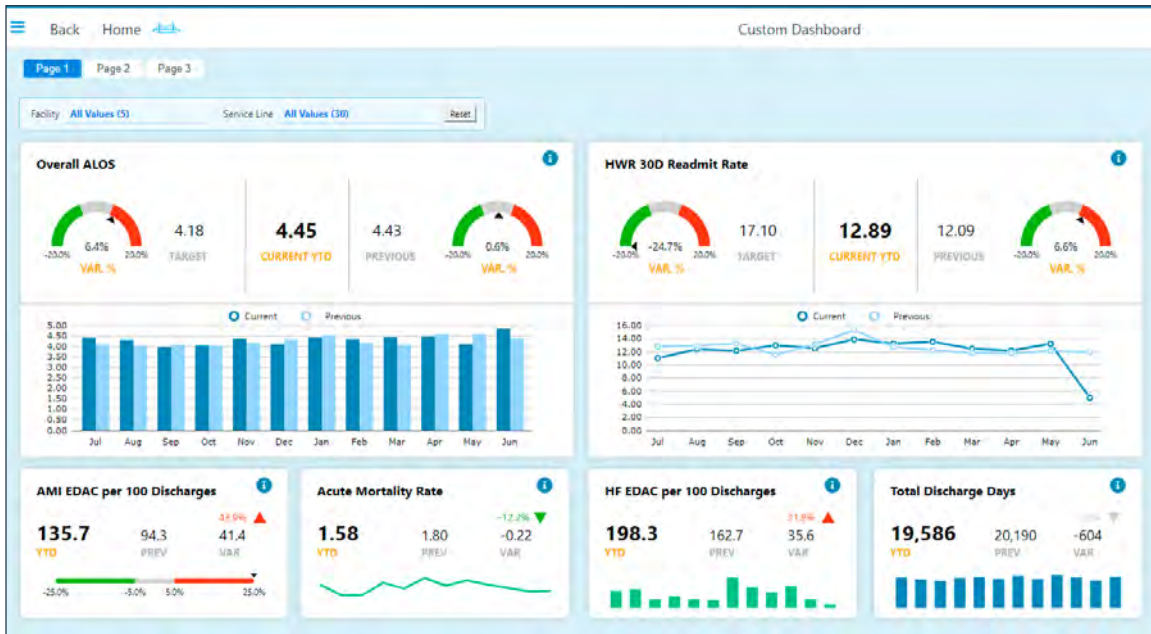

- Overall Hospital Mortality Rate
- Overall Hospital Mortality
- Acute Mortality Rate
- Acute Mortality
- AMI Mortality Rate
- AMI Mortality
- COPD Mortality Rate
- COPD Mortality
- HF Mortality Rate
- HF Mortality

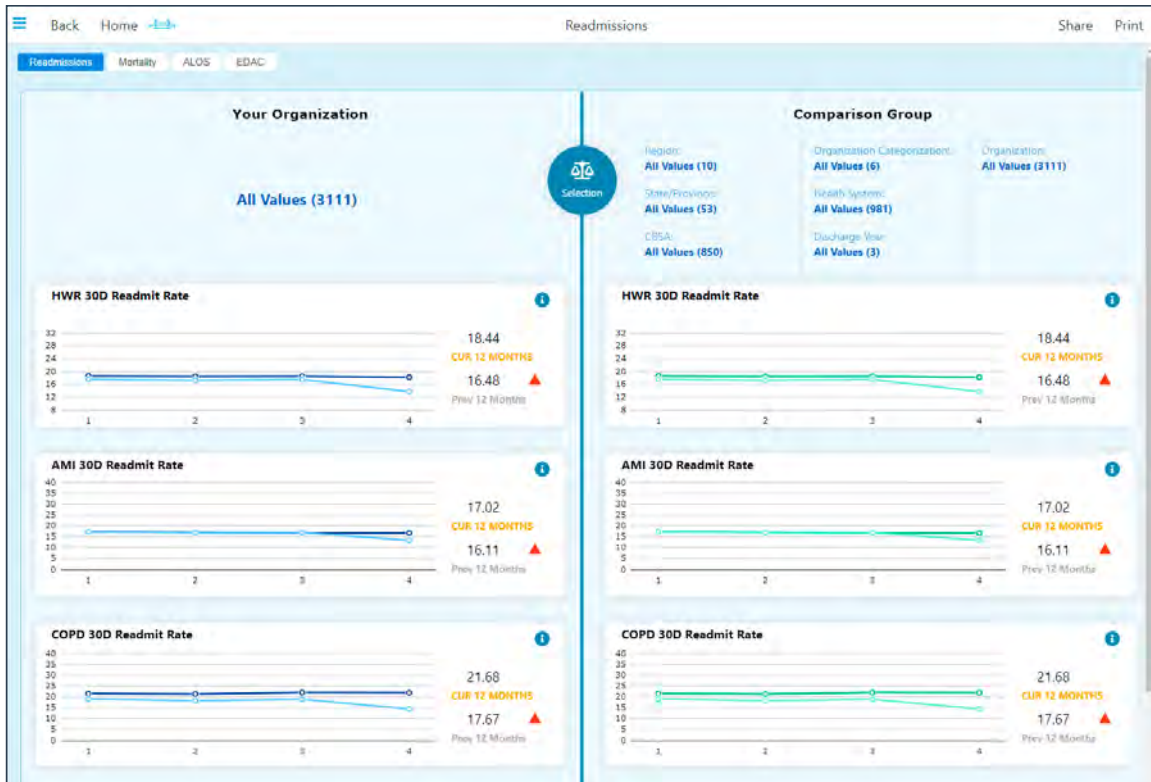

### Avg Length of Stay

- Overall ALOS
- Acute ALOS
- AMI ALOS
- COPD ALOS
- HF ALOS
- Normal Newborn ALOS

### EDAC

- Total AMI EDAC
- AMI EDAC Index Population
- AMI EDAC per 100 Discharges
- Total HF EDAC
- HF EDAC Index Population
- HF EDAC per 100 Discharges
- Total PN EDAC
- PN EDAC Index Population
- PN EDAC per 100 Discharges
- Total Overall EDAC
- Overall EDAC Index Population
- Overall EDAC per 100 Discharges

**About Dimensional Insight**

Dimensional Insight is a leading provider of analytics, data management, and performance management solutions, offering a complete portfolio of capabilities ranging from data integration and modeling to sophisticated reporting, analytics, and dashboards. The company is an eight-time Best in KLAS winner in healthcare business intelligence and analytics, most recently ranking #1 in 2021. Founded in 1989, Dimensional Insight has thousands of customer organizations worldwide. Dimensional Insight consistently ranks as a top performing analytics organization by customers and industry analysts in its core market segments including healthcare, manufacturing, and beverage alcohol.
