

DivePort 7.1: Design Basics

Objectives

This class provides an introduction to DivePort portal design concepts.

Prerequisites

Prior to this class, you must attend *ProDiver: Introduction to Advanced Data Analytics* or have equivalent experience.

Intended Audience

This class is intended for:

- Users that generate content for information consumers
- Users who distribute data throughout your organization

Delivery

This class is an interactive one-hour session delivered online by a training consultant. Students have access to DI software using a training virtual machine.
