

DivePort 7.1: Controlling Access

Objectives

In this class you will learn how to use DivePort administrator tools to control access to your DivePort portal.

Prerequisites

Prior to this class, you must attend *DiveLine Administration: Users, Home Projects, and Access Control* or have equivalent experience.

Intended Audience

This class is intended for DivePort administrators.

Delivery

This class is an interactive one-hour session delivered online by a training consultant. Students have access to DI software using a training virtual machine.
