

About Concierge-Level Training

Dimensional Insight is committed to delivering first-class training for Diver Platform. We have upgraded our online training offerings in order to deliver concierge-level training services to our customers.

We are offering two types of concierge-level online training:

Hands-on Diver Platform 7.1 training

- Personalized training using DI software with a training virtual machine (if not using the customer data).
- This is live and interactive training.
- Enrollment is limited to a maximum of 4 students.
- For Measure Factory training, enrollment is limited to a max of 3 students.
- A Student Guide via US Mail or a PDF file via email is included.
- This is priced at **\$75/hour/student** (minimum \$150/hour).

Instructor-led Diver Platform 7.1 training

- Presented using DI software.
- Intended as an opportunity to refresh skills.
- Q & A interaction with the instructor encouraged.
- Enrollment is limited to a maximum of 6 students.
- A Student Guide PDF file via email is included.
- This is priced at **\$50/hour/student** (minimum \$150/hour).

When on-site training becomes practical, the online per hour per student rates will apply. In addition, there will be an hourly “travel time/on-site” charge of \$50/hour. This is in addition to T & E charges.

NOTES:

- A minimum of 29 hours of training is necessary to develop basic Developer proficiency with DI software. Add another 9 hours for Measure Factory.
- A minimum of 6–9 hours of training is necessary for an Analyst to develop proficiency with ProDiver.
