

# ProDiver 7.1: Introduction to Advanced Data Analytics

## Objectives

In this class, you will learn how to:

- Dive into data to answer your business questions
- Adjust your view of the data as needed

## Prerequisites

Attendees must be experienced using Microsoft Office and Excel or similar computer applications.

## Intended Audience

This class is intended for analysts and users that generate content for information consumers.

## Delivery

This class is a personalized, interactive three-hour session delivered online by a DI training consultant.

Students have access to DI software using a training virtual machine.
