

DIMENSIONAL INSIGHT PARTNER PROGRAM

RESELLER & DISTRIBUTOR PARTNERS

www.dimins.com

Give your customers powerful and proven data management, analytics and reporting tools, and your company the competitive edge you need to succeed.

Value Added Resellers (VARs) and Distributors all over the world partner with Dimensional Insight to bring powerful end-to-end data management, BI and analytics solutions to their customers. By adding Dimensional Insight's industry-leading platform and applications to current product and services portfolio, our partners:

- **Uncover & establish new revenue streams**
- **Enhance customer satisfaction & retention**
- **Differentiate from competitors**
- **Quickly meet customer demand for advanced reporting & analytics**

Dimensional Insight's worldwide Reseller and Distributor partner program gives technology experts like you fast access to proven, fully customizable data management, BI and analytics technology and pre-built applications designed to meet a wide variety of customer needs. With the deep industry knowledge and expertise our partners possess, customers have the added benefit of two experienced teams standing behind them. And you can count on our dedicated sales, consulting and development teams to be there to support you and your customers every step of the way.

Powerful Data Management, Business Intelligence & Analytics

Dimensional Insight's end-to-end Diver Platform offers everything your customers need in a **single solution**. Whether deployed on premise or in the cloud, Diver seamlessly integrates data from any variety of sources, validates and ensures the **integrity** of that data, includes built-in **governance**, **collaboration** and robust **security**, and provides access to information and insights through a wide variety of dashboards and reports. Easy to use, **self-service** capabilities allow users to build and modify reports and dashboards on demand, and pre-built, fully customizable applications are ready-made to start delivering value in just days.

What you can expect:

- Flexible licensing & scalable pricing tailored to meet customer needs
- Commissions on both software and maintenance
- 100% of the revenue from implementation & consulting services you provide
- Pre-built, easily customizable applications and the freedom to build your own
- Developer license at no cost to you
- Unmatched pre-sales, sales & post-sales support
- On-demand sales enablement resources & materials
- Ongoing training opportunities, on & offline
