

DIMENSIONAL INSIGHT PARTNER PROGRAM

SOFTWARE VENDORS & OEM PARTNERS

www.dimins.com

Give your customers powerful and proven data analytics and reporting tools, and your company the competitive edge it needs to succeed.

Technology companies around the world are leveraging Dimensional Insight's end-to-end data management, BI and analytics solution to:

- **Uncover & establish new, long-term revenue streams**
- **Enhance customer satisfaction & retention**
- **Differentiate from competitors**
- **Quickly meet customer demand for integrated reporting & analytics**

Dimensional Insight's OEM partner program gives independent software vendors like you fast access to proven, embeddable data management, BI and analytics technology, with a dedicated sales, consulting and development team available to support you every step of the way.

Powerful Data Management, Business Intelligence & Analytics

Dimensional Insight's end-to-end Diver Platform offers everything you need in a **single solution**. Whether deployed on premise or in the cloud, Diver seamlessly integrates data from any variety of sources, validates and ensures the **integrity** of that data, includes built-in **governance, collaboration** and robust **security**, and provides access to information and insights through a wide variety of dashboards and reports. Easy to use, **self-service** capabilities allow users to build and modify reports and dashboards on demand.

What you can expect:

- Flexible licensing & scalable pricing tailored to your business needs
- Developer license at no cost to you
- Pre-built, easily customizable applications and the freedom to build your own
- Option to private label to match your brand identity
- Unmatched pre-sales, sales & post-sales support
- On-demand sales enablement resources & materials
- Ongoing training opportunities, on & offline
